**I urge you to take advantage
of this unique opportunity.**

DEAR CITIZEN,

The City Services Institute was developed to acquaint residents and business owners with the structure of City government and to provide them with information and tours of City facilities in an entertaining and informative manner that will enable them to become more fully involved in the community. I believe it is an ideal way for citizens to open the doors of City government and discover a wealth of information that will make them real authorities and resources for their neighbors, organizations and clubs. By the end of this eight week course, which includes a graduation ceremony and dinner, you will have a better understanding of how the City operates and will have established relationships with department directors and their staffs that will enable you to more easily conduct your business with the City.

**Open the doors
of City Hall
and discover a wealth
of information.**
