

MEMORIAL TREE FUND

Remember the life of a loved one, honor those close to you, and have a positive impact on the environment by making a donation to the Memorial Tree Fund. Planting trees in memory of a loved one help the special person live on in our hearts and continue to benefit the community and the Earth. Trees provide a living monument that grows more prominent every year. Trees are planted in public places throughout the corporate city limits once donations in the fund are available and the location and time of year are appropriate.
