

CLIMATE ACTION PLEDGE

This form can be printed or downloaded for your own records. No need to submit it to the City.

Boynton Beach’s 2020 Climate Action Plan aims to reduce greenhouse gas emissions (GHGs) 50% by 2035 and reach net zero by 2050.

You can help our community and our planet by committing to take one or more actions listed below!

To read the Climate Action Plan and find tips and resources to support your pledge, visit GoGreenBoynton.com.

BUILDINGS

(51% of our community’s GHGs)

- I will install solar panels** within the next 3 years or when I need a new roof.
- I will advocate for solar** at my workplace, apartment, condominium, or in federal, state, or local policy.
- I will learn about my home’s energy use** by logging in to my account at FPL.com and using the “Understand My Bill” and “Energy Analyzer” tools.
- I will conserve water** by fixing leaks, reducing irrigation use, installing a rain barrel, taking shorter showers, or installing efficient appliances.

DID YOU KNOW? The [Energy Edge Rebate Program](#) provides up to \$1,500 in rebates to City residents and small businesses for energy efficient improvements, solar energy, and electric vehicle supply equipment!

TRANSPORTATION

(46% of our community’s GHGs)

- I will purchase an electric or hybrid-electric vehicle** within the next 2 years.
- I will reduce my car use** by walking, biking, carpooling, or taking public transportation when possible.

DID YOU KNOW? The City has free EV charging stations at local parks and beaches and will install more at the new Town Square!

COMMUNITY

- I will plant a tree** within the next 6 months or support local tree planting efforts by [Community Greening](#).
- I will vote for climate-aware candidates** in local, state, and federal elections.
- I will contribute to an organization** (in time or money) that advocates for climate solutions.
- I will spend more time outside** and enjoy the natural world.

WASTE AND CONSUMPTION

(3% of our community’s GHGs)

- I will reduce my plastic use** by declining single-use plastic bags, water bottles, straws, utensils, and containers.
- I will reduce food waste** by shopping and eating consciously, storing leftovers in airtight containers, composting at home, or enrolling in a [composting program](#).
- I will reduce my meat consumption** by eating more plant-based meals (beef has a much higher carbon footprint than other protein sources).

DID YOU KNOW? The City’s [Green Business Recognition Program](#) promotes local restaurants that voluntarily commit to actions that reduce their environmental impact.
